*bulb not included

Q-Lume™ Revealing a better way to install Non-Metallic Utility Jar Fixture

Part Numbers

Q-Lume Fixture, Glass Jar QL300J

Q-Lume Fixture, No Glass Jar QL303

Application:

The economical Q-Lume™ Utility Jar Fixture installs quickly & easily onto most junction boxes. The exclusive junction box adaptor has a superior watertight seal against the junction box & provides our Ficient Lock™ watertight fitting to quickly lock in our fixture assembly. Simply twist, lock, & it's dustproof & watertight! The Q-Lume™ fixture is made of a virtually indestructible high tech polymer, has a replaceable socket & includes captive high-temp silicone gaskets. Intended for use indoors & out, ETL listed for wet locations, & is designed specifically for use with today's energy saving screw in LED or CFL lamps.

Features:

- Installs quickly & easily replaces your existing fixture
- Replaceable medium base, edison E26 socket
- Nickel plated socket lasts longer
- (2) sets of installation screws included
- ETL listed for wet locations for US & Canada
